Dear John:

In anticipating our coming legislative activities in Sacramento, I presume it will be necessary to get new Advocate Cards.

Mr DeWitt will not be there this year due to a heart attack so I will have to have cards for three persons to take his place.

Robt. E. Ketcham, Pres. O.F.P.A.  
 J. B. McNally, Sec. O.F.P.A.  
 Harold Woods, our delegate to the Sardine Advisory Board.

As these men all have business to conduct, any one of them vent qualified in their line of work to help me could, if their business permits, help me there.

As I remember it we all must fill out applications which with a letter from the Secretary stating their appointment, is filed with your office.

Can you mail me four of these applications, and to whom shall we address the letter? Also to whom shall we report our monthly expenses?

Thanking you for your advice in this matter,  
 I am,

Yours truly

3) The first set of results in Table 1, for  $\beta = 0.01$  and  $\alpha = 0.14$

1. The first part of the paper is devoted to the study of the properties of the function  $f(x)$  defined by the equation

$$T = \begin{pmatrix} 1 & 0 & 0 \\ 0 & 1 & 0 \\ 0 & 0 & 1 \end{pmatrix}, \quad T = \begin{pmatrix} 1 & 0 & 0 \\ 0 & 1 & 0 \\ 0 & 0 & 1 \end{pmatrix}, \quad T = \begin{pmatrix} 1 & 0 & 0 \\ 0 & 1 & 0 \\ 0 & 0 & 1 \end{pmatrix}$$

1. *Phragmites australis* (Cav.) Trin. ex Steud.

*(Faint vertical text, likely bleed-through from the reverse side)*

1. *Chlorophyll a* (Chl *a*) is the primary photosynthetic pigment in most plants and algae. It is a green pigment that absorbs light energy in the blue and red regions of the visible spectrum. Chl *a* is located in the thylakoid membranes of chloroplasts and is essential for the light-dependent reactions of photosynthesis.

*[Faint vertical text or bleed-through from the reverse side]*

1. The first part of the paper is devoted to the study of the properties of the function  $f(x)$  defined by the equation  $f(x) = \sum_{n=0}^{\infty} a_n x^n$ , where  $a_n = \frac{1}{n!}$ . It is shown that  $f(x)$  is a continuous function on the interval  $[0, 1]$  and that it is differentiable at  $x=0$ . The derivative of  $f(x)$  at  $x=0$  is found to be  $f'(0) = 1$ .

1. *Chlorophyll a* (Chl a) is the primary photosynthetic pigment in most plants and algae. It is a green pigment that absorbs light energy in the blue and red regions of the visible spectrum. Chl a is essential for the light-dependent reactions of photosynthesis, where it converts light energy into chemical energy.

2. *Chlorophyll b* (Chl b) is an accessory pigment found in green plants and algae. It is a yellow-green pigment that absorbs light energy in the blue and orange regions of the visible spectrum. Chl b transfers the absorbed energy to Chl a for use in photosynthesis.

Carotenoids absorb light energy in the blue and green regions of the visible spectrum and transfer the energy to Chl a. They also play a role in protecting the photosynthetic apparatus from damage by reactive oxygen species.

They absorb light energy in the blue and green regions of the visible spectrum and transfer the energy to Chl a. Xanthophylls also play a role in protecting the photosynthetic apparatus from damage by reactive oxygen species.

1. The first step in the process of creating a new product is to identify a market need. This involves conducting market research to understand the preferences and behaviors of potential customers. Once a need is identified, the next step is to develop a concept that addresses this need. This concept should be unique, valuable, and feasible. The third step is to create a prototype, which is a preliminary model of the product. This allows the team to test the concept and make necessary adjustments. The fourth step is to conduct a feasibility study, which evaluates the technical, financial, and operational aspects of the product. Finally, the product is launched into the market, and the team monitors its performance and customer feedback to make further improvements.

In a letter I received as Legislative Representative for the California Optometric Association, dated July 19, 1952, written by Louis A. Hill, Legislative Representative and Counsel, I was asked to file a sworn statement with his office between August 1, 1952 and January, 1953 a sworn statement to the effect that I engaged in no activities during the period June, 1951 to March, 1952, which would constitute a conflict of interest (a person who shall engage himself for pay.....for the purpose of attempting to influence the passage or defeat of any legislation by the Legislature of the State of California .....).

By means of this sworn statement, this is to certify that I have engaged in no activities during the period June, 1951 and March, 1952, as well as from May 1, 1952 to the present time, regulated by the Government Code Section referred to above.

I trust that you will accept this statement as a sworn statement so as to enable the Senate Committee on Legislative Appropriations to release my name as Legislative Representative as a Legislative Advocate for the 1953 session of Legislature.

#### Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 205:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE  
SACRAMENTO, April 29, 1953

*To the Honorable Members of the Senate  
Sacramento, California*

GENTLEMEN :

**Senate Bill No. 205**, "An act to add Sections 43 and 44 to the Construction and Employment Act (Statutes of 1946 (First Extra) Session, Chapter 20), relating to the allocation of funds to cities, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill appropriates \$162,000 from the Postwar Unemployment and Construction Fund, to be allocated to cities recently incorporated, for the purposes of the Construction and Unemployment Act. It carries an urgency clause reciting that these newly incorporated cities would be benefitted by this act as they are in urgent need of public health and sanitation facilities.

Under the circumstances I suggest that the Legislature might well consider Senate Bill No. 205 before final enactment of the Budget Bill.

Respectfully submitted,

EARL WARREN, Governor

#### PROGRESS REPORT OF THE SECRETARY OF THE SENATE

SENATE, CALIFORNIA LEGISLATURE  
May 12, 1953

*Hon. Harold J. Powers*  
*President pro Tempore*  
*State Senate*

DEAR SENATOR POWERS: We have on the Senate File today a total of 88 measures, omitting the Inactive File. We have remaining 30 calendar days. If we subtract Saturdays and Sundays, we have 22 days remaining. This is the ninety-first calendar day.

Last session, from the ninetieth calendar day to the last day of the session, Senate committees reported out for action 924 measures. Assuming that they will report out the same number during the remaining days of this session, and adding the 88 on today's File means that we have 1,012 measures to act on in the remaining 22 days, or an average of 46 roll calls per day from now to the end of the session. In addition, there will be roll calls on the adoption of urgency clauses, confirmation of appointments, concurrence in amendments, and adoption or rejection of conference reports. We might safely estimate an average of 55 roll calls per day for the balance of the session.

On the last day of the last session, Senate committees returned to the Senate 1,426 bills without recommendation.

Respectfully submitted,

J. A. BEEK

#### MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE  
SACRAMENTO, May 11, 1953

*To the Honorable Members of the Senate*  
*State of California*  
*Sacramento, California*

GREETINGS: I am returning herewith, without my signature,

Senate Bill No. 28, entitled: "An act to amend Sections 117-j, 117-k, and 117-l of the Code of Civil Procedure, relating to appeals from small claims courts."

My objections to this bill are as follows:

This bill gives the plaintiff in a small claims court the right of appeal. Under existing law only the defendant has this right.

The small claims court was established many years ago to provide an expeditious, simple, and economical court for the determination of claims involving small amounts. It was designed to give litigants with limited means a court where their disputes could be quickly settled at small expense. To do this two principal changes from ordinary court procedure were provided: the plaintiff was denied the right of appeal and attorneys were barred from representing either party. This bill would remove one of these distinctive provisions. To this extent it would break down the advantages and the distinctive features of the small claims court.

It is not unreasonable, in the interest of economical and rapid disposition of cases to limit the plaintiff to the decision of the trial court. He chooses this court as he has the option to bring his action under small claims or ordinary procedure. In choosing this summary and cheaper proceeding he waives the possibility of appeal if he is not satisfied

with the decision at the trial. This is not true of the defendant who has no choice and is brought into the small claims court against his will. It would be considered unreasonable to deny him the right of appeal as obviously he has had no discretion and has waived nothing to secure an advantage for himself.

It has been pointed out to me by the Chief Justice of our Supreme Court and on behalf of the Committee on Administration of Justice of the State Bar that this measure could reasonably be expected to add greatly to the congestion of our superior court calendars. A large increase in appeals might result from this bill thus taking up a great deal of the time of our superior courts with small claims matters.

Our small claims courts have for many years met a real need and have been of substantial benefit to our people. I do not believe these benefits should be even partially nullified.

Respectfully submitted,

EARL WARREN, Governor

Message read.

Senate Bill No. 28 ordered to the unfinished business file.

**REQUEST FOR UNANIMOUS CONSENT**

Senator Hatfield asked for and was granted, unanimous consent to have the following opinion of the Legislative Counsel regarding county board of freeholders, printed in the Journal.

**OPINION OF LEGISLATIVE COUNSEL**

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL  
SACRAMENTO, May 12, 1953

*Hon. George J. Hatfield*  
*Senate Chamber*

*County Board of Freeholders—No. 10098*

DEAR SENATOR HATFIELD: We have your request asking us whether Senate Constitutional Amendment 27 as amended in Senate May 7, 1953, permits persons other than the 15 named in the petition to file as candidates for members of a county board of freeholders to formulate a new charter.

In our opinion S.C.A. 27 provides for the election of county freeholders by nomination and not by the petition for the drafting of a charter. The existing constitutional provision reads:

"Candidates for election as members of said board of freeholders shall be nominated by petition, substantially in the same manner as may be provided by general law for the nomination, by petition of electors, of candidates for county offices, to be voted for at general elections."

The proposed constitutional amendment eliminates the provisions for nomination by petition and provides that the candidates shall be nominated substantially in the same manner as provided by general law for the nomination of candidates for county offices.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel  
By JOSEPH L. KNOWLES, Deputy

#### Motion to Refer Bill to Inactive File

**Recommendation of the Governor**

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No. 527:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, April 29, 1953

*To the Honorable Members of the Senate  
Sacramento, California*

GENTLEMEN: The subject matter of

**Assembly Bill No. 527**, "An act providing for a study of earth barriers in San Francisco Bay, creating a legislative advisory committee to assist in the study, and making an appropriation for the purposes of the act, and declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not wait the final enactment of the Budget Bill.

In addition to the importance of determining the economic feasibility of a barrier, or barriers, across San Francisco Bay, an emergency appropriation at this time would make possible a study of the salinity problem in the bay and delta areas during the low water season this coming summer.

I have not had a full opportunity to study the provisions of this bill but I would call your attention to the fact that the Water Project Authority is an agency of limited and defined powers in the field of water conservation. If the proposed study is to include a study of transportation and industrial purposes it may be necessary to enlarge the functions of the authority to conform to the duties intended to be imposed on it. The question of whether this can done as an urgency measure poses a constitutional question which should be considered by the Legislature. It is my opinion that these things should be the subject of inquiry in the proposed study.

I therefore recommend consideration of Assembly Bill No. 527 as an emergency measure.

Respectfully submitted,

EARL WARREN, Governor

#### MOTION TO PRINT OPINIONS OF THE LEGISLATIVE COUNSEL

Senator O'Gara moved that the following opinions of the Legislative Counsel regarding Senate Bill No. 558 be printed in the Journal.

Motion carried.

#### OPINION OF THE LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO, April 9, 1953

*Hon. Gerald J. O'Gara*

*Senate Chamber*

#### *Senate Bill No. 558—No. 8425*

DEAR SENATOR O'GARA: With respect to Senate Bill No. 558 as amended in the Senate April 9, 1953, you ask the following questions:

1. Does the bill effectively provide for the collection of tolls?
2. Does it appropriate these tolls so as to give any one authority to withdraw them from the State Treasury to pay interest and principal on Golden-Gate Bridge Bonds or to pay expenses incurred in operating and maintaining the bridge?

The bill provides, among other things, that upon the inclusion of the bridge in the State Highway System the California Toll Bridge Authority shall ex officio become the board of directors of the Golden Gate Bridge and Highway District and shall be vested with the duties, powers and responsibilities of the existing board, "except as modified by this chapter." The duties thus imposed on the authority would include the duty to fix such tolls as will pay the operating expenses of the district, provide for repairs and depreciation of works, pay the interest on bonded indebtedness of the district, provide a sinking fund for the payment of the principal of such indebtedness and provide an emergency fund. (S. & H. C. 27281).

The disposition to be made of the tolls so collected is derived from proposed Section 31004, which provides, in part:

"At the same time the authority shall assume control of all properties, real and personal, all monies, funds and other assets of the district, and all monies and funds of the district shall be transferred into the State Treasury, kept in separate funds, except that any fund required to be kept in other depositories by provision of any bond resolution or indenture shall be deposited as required thereunder."

It is plain from this provision that all money and funds of the district which are not required by provision of a bond resolution or indenture to be kept in some other place shall, as of the date the district assumes control of the bridge, be deposited in the State Treasury. It can then be argued that neither this provision nor any other provision of the bill covers revenues accruing from tolls collected subsequent to that date.

However, as previously mentioned, the Toll Bridge Authority, upon the inclusion of the bridge into the State Highway System, will be vested with all duties, powers, and responsibilities of the board including the power and duty to levy and collect tolls and to set aside in *separate funds* out of the tolls a sufficient sum to accomplish the five matters specified in subdivisions (a) to (e) to Section 27281 of the Streets and Highways Code. Since the provision requiring the transfer of district money into the State Treasury contained in proposed Section 31004 quoted above requires the money to be kept in separate funds in the State Treasury, and since the authority has the statutory duty to set aside the tolls in separate funds (S. & H.C. 27300), it appears clear that the Legislature intended that special funds be created in the State Treasury and that the tolls be deposited in those funds.

We believe therefore that the tolls collected by the authority would be required to be deposited in separate funds in the State Treasury. Once so deposited the money cannot be withdrawn from the treasury except pursuant to an appropriation made by law and upon warrants drawn by the State Controller (Const., Sec. 22, Art. IV). The only language in the bill which could conceivably constitute an appropriation within the meaning of this constitutional provision is that portion of proposed Section 31002 which provides:

"The cost of maintaining and operating the toll bridge, and the approaches thereto that are not on the effective date of this section in the State Highway System, shall be paid out of the tolls and revenues received from the use and operation of the bridge."

While no set form of words is essential for an appropriation (*Humbert v. Dunn*, 84 Cal. 57), there must be a setting aside of a specified sum of money for a specified object in such a manner that specified officers are authorized to use that money and no more for the specified purpose (*Ryan v. Riley*, 65 Cal. App. 181). We do not believe the language quoted above meets this test since, as we see it, the provision merely designates the money from which specified expenses shall be paid when, as and if it is collected, deposited in the State Treasury and made available for use by valid future appropriation.

We therefore believe that if the bill as amended in Senate April 9, 1953, should become law, the tolls collected after the bridge is included in the State Highway System could not be used for maintaining or operating a bridge or paying the other expenses mentioned in your question, unless they were appropriated for that purpose in a budget bill or special appropriation bill. This conclusion is strengthened by the fact that the amendment to the bill adopted in Senate April 2, 1953, deleted from proposed Section 31004 specific authority to expend the money deposited in the separate funds in the State Treasury.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel  
By A. C. MORRISON, Deputy

Two copies to Hon. John F. McCarthy, pursuant to Joint Rule 34.

*Golden Gate Bridge—No. 8456*

#### *Question*

DEAR SENATOR O'GARA: You have asked, if Senate Bill No. 558 passed in its present form, what appropriations are available under existing law for maintaining and operating the Golden Gate Bridge and its approaches; and if such other existing appropriations are insufficient to take care of the other purposes for which they are available, plus the bridge and approaches, whether the money for the bridge can be obtained without additional legislation.

#### *Opinion*

In our opinion money in the State Highway Fund available for general administration purposes and maintenance of state highways, pursuant to Section 186 of the Streets and Highways Code, may be used to meet the initial expense of maintaining and operating the Golden Gate Bridge, but the bill requires that the Department of Public Works be reimbursed for such expenditures out of the tolls and revenues received from the use and operation of the bridge. If the maintenance money in the State Highway Fund is insufficient to meet such expenditures, money for the bridge cannot be obtained without additional legislation (see our opinion to you under Request No. 8425, dated April 9, 1953).

#### *Analysis*

S.B. 558, as amended in Senate April 2, 1953, declares the Golden Gate Bridge and its approaches to be a part of the State Highway System, requires the Department of Public Works to maintain and operate the bridge and approaches, and requires the cost of such maintenance and operation to be paid out of tolls and revenues (S. & H. C. 31002). The bill, however, recognizes that the department will be required to make expenditures prior to the receipt of tolls, since, under Section 31005 of the Streets and Highways Code, the California Toll Bridge Authority (which is substituted for the board of directors of the Golden

Gate Bridge and Highway District as the governing body of said district) is required to reimburse the department for all expenses incurred by it, and such reimbursement is required to be paid into the State Highway Fund and to be credited to the portion of said fund from which such expenses were paid. The bill is silent as to what portion of the State Highway Fund such expenses will be paid, but, since no special provision is made, and since the bridge and approaches are made part of the State Highway System, we believe that such expenditures could properly be made from the money available for general administration purposes and maintenance of state highways under Section 186 of the Streets and Highways Code. Such expenditures, of course, would be required to be reimbursed as soon as tolls and revenues from the bridge are available for that purpose.

The answer to the second part of your question is contained in our opinion to you under Request No. 8425, dated April 9, 1953; that is, that the bill itself does not make any money available for payment of the cost of maintaining and operating the bridge and approaches.

Yours very truly,

RALPH N. KLEPS, Legislative Counsel  
By RAY H. WHITAKER, Deputy

#### REQUEST FOR UNANIMOUS CONSENT

Senator McCarthy asked for, and was granted, unanimous consent to have the following opinion of the Attorney General regarding Senate Bill No. 558, printed in the Journal.

#### OPINION OF THE ATTORNEY GENERAL

OFFICE OF THE ATTORNEY GENERAL  
STATE BUILDING, SAN FRANCISCO  
April 20, 1953

*Hon. Wm. "Cliff" Berry*  
*Assemblyman, 23rd District*  
*State Capitol*  
*Sacramento, California*

DEAR MR. BERRY: This acknowledges with thanks your letter of April 11 last, raising certain questions with respect to Senate Bill 558 as amended in the Senate on April 2nd.

Enclosed is a copy of opinion 52/191 dealing with the same subject matter. In his request for that opinion, Senator McCarthy attached a draft of proposed legislation which Senate Bill 558, as originally introduced, substantially followed. We have examined the bill as amended in the Senate on April 2 and find no constitutional objection to it.

You have asked how the money of the Golden Gate Bridge and Highway District which is transferred to the State Treasurer may be released for expenditure. It will be noted that all of the funds of the District are not required to be transferred to the State Treasury since the bill specifically excepts those funds which are required to be kept in other depositaries under the provisions of the bond resolution or indenture. Section 27185 of the Streets and Highways Code authorizes, among other

things, the board of directors to deposit all or any part of the District's funds in the State Treasury, to be paid out by the State Treasurer upon warrants of the District. Moreover, section 31002 of the bill provides that the Department of Public Works shall maintain and operate the bridge and that such costs shall be paid out of bridge tolls and revenues. Under section 31005 the Toll Bridge Authority, as the directorate of the District, would be required to reimburse the Department of Public Works for all expenses which the latter thus incurs. Such reimbursement shall be paid into the the State Highway Fund and "credited to the portion of said fund from which said expenses were paid." In other words, these sections contemplate that the State Highway Fund may be used by the Department to defray the cost of maintaining and operating the bridge and the State Highway Fund is to be reimbursed for such expense from bridge tolls and revenues (cf. Streets and Highways Code 180-206).

In the second paragraph of your letter you ask if the contractual rights of the bondholders of the Golden Gate Bridge and Highway District would be impaired in the event the funds of the District are impounded in the State Treasury. We find nothing in the bill which impairs the contractual relationship between the Golden Gate Bridge and Highway District and the holders of its bonds. As noted above, the bill specifies that funds shall be deposited in the manner provided by the bond resolution or indenture. It should also be remembered that the bill does not abolish the District as a legal entity merely because it provides for a change in the personnel of the board of directors.

You also inquire whether California by legislative act or otherwise has ever acquired "a completed public project of any political subdivision or assumed any outstanding bonded indebtedness and or other financial obligations." We are unaware of any such statute or act of the executive branch of the State in such respect. Although it does not fall precisely within the language of the question you have asked, attention is invited to Statutes of 1919, Chapter 556, under which the Legislature appropriated money in the State Treasury to alleviate the bonded indebtedness of the Sacramento and San Joaquin Drainage District with respect to the Sutter-Butte By-Pass Assessment No. 6. This legislation is discussed and was upheld in *Sacramento etc. Drainage District v. Riley*, 199 Cal. 668. The State has acquired the completed projects of private corporations such as the San Mateo-Hayward Bridge, the Dumbarton Bridge and the Carquinez Bridge. In those cases the acquisitions were made through the sale of bonds of the Toll Bridge Authority, the proceeds of which were paid to the private owners in payment for the bridges, free and clear of outstanding obligations. The private owners discharged their own obligations to their respective bondholders.

If there is any other aspect of this matter on which you desire to be advised we shall be glad to assist you in every way possible.

Very truly yours,

EDMUND G. BROWN, Attorney General  
By RALPH W. SCOTT, Deputy

Secretary J. A. Beek at the Desk

The California Toll Bridge Authority shall proceed forthwith in accordance with this article and as soon as possible under federal law with the planning, financing and construction of two additional crossings of San Francisco Bay between the County of Alameda and the City and County of San Francisco under the California Toll Bridge Authority Act. One of such additional crossings shall generally parallel said existing bridge and the other shall be located southerly thereof, but in no event shall the San Francisco terminus be north of Army Street. The authority, immediately when this law becomes effective, shall petition the Congress of the United States to enact legislation, the effect of which shall be to remove all such restrictions in the federal law and which legislation will provide that tolls from the existing toll bridge shall be used exclusively for the construction of northern and southern crossings and the approaches leading to such crossings and the cost of the operation and maintenance of the existing toll bridge, northern and southern crossings and the approaches leading to such bridge and northern and southern crossings, and which legislation will further provide that the present toll bridge and the northern and southern crossings shall be toll free if and when all the interest and all the principal of all loans and revenue bonds to accomplish the improvements described in this article and such operation and maintenance thereof shall have been paid in full.

30706. In connection with any new crossing the authority may refund any outstanding bonds on the existing bridge and issue new bonds secured by the revenues of the existing bridge and any new crossing or crossings to be constructed. In the event all bonds on the existing bridge are repaid and retired before the issuance of new bonds for such purposes, the authority shall continue to collect tolls at approximately the present rates, subject to its power to adjust rates of toll to correct inequities or facilitate operation of the bridge. Toll revenues so collected shall be accumulated in the State Treasury and, subject to other provisions of law, shall be available to the authority for investment by it as provided by the California Toll Bridge Authority Act and for the planning and financing of such additional crossing or crossings. Any amounts accumulated may be pledged by the authority in connection with the issuance and sale of any new bonds.

30707. Except as may be in conflict with bonds outstanding on the effective date hereof, from and after said effective date the cost of physical maintenance, operation and insurance of the existing bridge and any additional crossings shall be paid from toll revenues. The Department of Public Works, however, shall return quarterly to the funds into which revenues of the existing bridge and any new crossings are paid an amount representing the fuel tax collected from vehicles traversing the same, computed by assuming the use of one-half gallon of motor vehicle fuel per vehicle crossing said bridge or additional crossings. The amounts so paid by the department shall be charged to expenditures for maintenance of state highways.

30708. In the event outstanding bonds on the effective date hereof prohibit compliance with Section 30707, by requiring maintenance costs to be paid from other than bridge revenues, such costs shall continue to be paid in the manner required on the effective date of this section, but adjustments shall be made at the time any new, additional or refunding bonds are issued to provide the payment from toll revenues of the amounts required by Section 30707. If no new, additional or refunding bonds are issued prior to the retirement of bonds outstanding on the effective date hereof, toll revenues shall be used to make such adjustments.

30709. There shall be repaid into the State Highway Fund the sum of thirteen million five hundred thousand dollars (\$13,500,000) by the California Toll Bridge Authority to reimburse that fund for moneys heretofore expended therefrom for maintenance, operation and insurance of the toll bridge.

Whenever, after the effective date of this section, any bonds secured by a pledge of the tolls and revenues of the toll bridge are refunded or retired, in the total then outstanding, the California Toll Bridge Authority shall include in the proceedings for any new issue of bonds for such purpose bonds in an amount fully sufficient to repay to the State Highway Fund the amount provided by this section.

If the amount provided to be repaid to the State Highway Fund by this section is not repaid from the proceeds of the sale of bonds, then, after all revenue bonds issued and sold by the California Toll Bridge Authority in the sum of twenty-one million dollars (\$21,000,000) and designated as "San Francisco-Oakland Bay Bridge 1951 Refunding and Improvement Toll Bridge Revenue Bonds, Series A" have been fully redeemed and paid, the authority and the department shall fix and collect tolls on the toll bridge at a rate sufficient to include provision for such repayment until the amount required to be paid into the State Highway Fund by this section has been collected to make such payment.

The moneys required to be repaid by this section shall be credited to the money available for construction of state highways in County Group No. 1 as specified in Section 187.

30710. The California Toll Bridge Authority and the Department of Public Works may exercise all powers given to them under Chapter 1 of this division and by this article in carrying out the purposes thereof.

SEC. 2. The sum of one million five hundred thousand dollars (\$1,500,000), or so much thereof as may be necessary, is hereby appropriated from the General Fund for surveys, plans, estimates of cost, specifications, and other expenses preparatory to financing and constructing a toll bridge or other toll highway crossing of the Bay of San Francisco from Alameda County to the City and County of San Francisco, to be located southerly of the existing San Francisco-Oakland Bay Bridge, but in no event shall the San Francisco terminus of said bridge be north of Army Street, and including necessary approaches, to be expended through and upon authorization of the Department of Public Works. The California Toll Bridge Authority shall return said appropriation, or so much thereof as may be used, with interest thereon at the rate of one and one-half percent (1½%) per annum, to be computed on the total amount withdrawn during any one year, to the General Fund, from the proceeds of the first sale of revenue bonds issued for the construction of said bridge, or other highway crossing, under the provisions of the California Toll Bridge Authority Act; or in the event that revenue bonds secured by tolls of the existing San Francisco-Oakland Bay Bridge are issued prior to the issuance of revenue bonds for the construction of said proposed new bridge or other highway crossing, and the issuance of bonds secured by the revenues of said existing bridge for such purposes is not in violation of federal law, then such return shall be made from the proceeds of such bonds. In the event no bonds as hereinabove set forth are issued, and all revenue bonds secured by revenues on the existing San Francisco-Oakland Bay Bridge are fully retired, and all other obligations secured by revenues of said bridge whether by means of bond issue or other provisions of law have been fully paid, then said repayment shall be made from the revenues of the existing San Francisco-Oakland Bay Bridge, and the California Toll Bridge Authority and the Department of Public Works are directed to continue to fix and collect tolls on said bridge for the purpose of making the repayment required herein.

SEC. 3. Sections 30605, 30606, 30607 and 30608 of the Streets and Highways Code are repealed."

4903. The commission may determine, and allow as a lien against any amount to be paid as compensation:

(a) *Attorney's Fee and Disbursements.* A reasonable attorney's fee for legal services pertaining to any claim for compensation either before the commission or before any of the appellate courts, and the reasonable disbursements in connection therewith.

(b) *Medical and Hospital Expenses.* The reasonable expense incurred by or on behalf of the injured employee, as provided in Article 2 of Chapter 2 of Part 2 of this division.

(c) *Living Expenses of Employee or Dependents.* The reasonable value of the living expenses of an injured employee or of his dependents, subsequent to the injury.

(d) *Burial Expenses.* The reasonable burial expenses of the deceased employee, not to exceed the amount provided for by Section 4701.

(e) *Living Expenses of Wife or Minor Children.* The reasonable living expenses of the wife or minor children of the injured employee, or both, subsequent to the date of the injury, where such employee has deserted or is neglecting his family. Such expenses shall be allowed in such proportion as the commission deems proper, under application of the wife or guardian of the minor children.

(f) *Unemployment Compensation Disability Benefits.* The amount of unemployment compensation disability benefits which have been paid under or pursuant to the Unemployment Insurance Act in those cases where, pending a determination under Division 1 of this code, there was uncertainty whether such benefits were payable under that act or payable hereunder. *Any lien allowed under this subdivision shall be subordinate to the lien mentioned in subdivision (a) hereof. Any lien claimant under this subdivision shall serve and file in the proceeding before the commission copies of all medical reports in its possession relating to the person to whom said unemployment compensation disability benefits were paid.*

(g) *Unemployment Compensation Benefits.* The amount of unemployment compensation benefits paid erroneously to the injured employee for a period for which he was unable to work and for which he received temporary total disability payments under this division.

5006. In any case where uncertainty exists whether benefits were or are payable under the unemployment compensation disability benefit provisions of the Unemployment Insurance Act or are payable hereunder, a compromise and release of the claim hereunder shall not constitute a determination of such uncertainty; provided, however, that the employee may, as a part of such compromise and release agreement, release any further or future claim to unemployment compensation disability benefits for or on account of the same disability, and the unemployment compensation disability insurer, including the Department of Employment, may contribute an additional payment or a reduction or waiver of its claim of lien or both as consideration for a release by the employee of such further or future claim to unemployment compensation disability benefits, it being the purpose of this section to encourage the settlement of disputes between employees, employers, insurers and unemployment disability compensation carriers or the Department of Employment in a single compromise and release agreement.

SEC. 4. Section 5007 is added to the Labor Code, to read:

5007. Where a lien claimant is not a party to a compromise of any liability which is claimed to exist under this division on account of injury, occupational disease, or death, such compromise and release shall not abate or prejudice the right of the lien claimant to prosecute the claim of lien in the place and stead of the employee, subject to the same burdens of proof and the same defenses as the original claim; provided, however, that payment by an employer or insurer made pursuant to an approved compromise agreement in good faith and prior to receipt of the notice referred to in Section 4904 shall bar the claim of lien.

SEC. 5. Section 5407.5 of the Labor Code is amended to read:

5407.5. The period within which may be commenced proceedings for the reduction of compensation on the ground of serious and wilful misconduct of the employee, under provisions of Section 4551, is as follows:

SEC. 8. Section 6 of this act, amending Section 2714 of the Unemployment Insurance Code, shall become operative at the same time that that code becomes operative, at which time the amendment of Section 254 of the Unemployment Insurance Act made by Section 7 of this act is hereby repealed."

"SECTION 1. Section 34329 is added to the Health and Safety Code, to read:  
34329. As a matter of legislative determination, it is declared to be in the public interest to provide a means by which a city or county may negotiate the abandonment of any uncompleted public housing project or any uncompleted part of a public housing project provided for in Part 2 of Division 24 of the Health and Safety Code when the governing body of such city or county, or the electors thereof by vote, deem it necessary or desirable in the interests of such city or county that such uncompleted project or such uncompleted part of a public housing project be abandoned. It is recognized that public housing projects constructed in this State are financed by federal funds and by direct and indirect subsidies from local governments; and it is further declared that the Federal Government and the city or county within whose boundaries a housing authority has its area of operation are the entities possessing the principal fiscal

interest in the construction or abandonment of housing projects by reason of the assistance extended by the former to such housing projects, and the tax exemption required of and facilities and services furnished by the latter to such housing projects. It is declared that any agreement reached by the governing body of a city or county with the Federal Government, or any agency thereof, for the abandonment of one or more uncompleted public housing projects or any uncompleted part of a public housing project as provided in this chapter, shall be binding upon any housing authority which has its area of operation within such city or county.

SEC. 2. Section 34330 is added to said code, to read:

34330. (a) Any uncompleted public housing project or any uncompleted part of a public housing project may be abandoned as provided in this chapter. The word "uncompleted" as used in this chapter shall mean any area of a public housing project upon which the proposed improvements have not been constructed or are not under construction, including any area which has been or is being cleared, leveled or graded or otherwise prepared for construction.

(b) The governing body of a city or county may at any time request a housing authority having an area of operation within its limits to furnish such governing body all information regarding expenditures made and obligations incurred by the housing authority in connection with the acquisition, clearing and improvement of any property acquired for a public housing project or projects located on any one or more sites within such city or county, and all information pertaining to expenditures made and obligations incurred by the housing authority, and the nature thereof, in connection with the planning and construction of such project or projects. The housing authority shall supply such information not later than 30 days after such request.

(c) Whenever the governing body of a city or county finds, or if prior to the effective date of this section it has found, by resolution that one or more uncompleted public housing projects, or that some uncompleted part of a public housing project, located on one or more sites within such city or county should be abandoned, the governing body shall designate one or more of its members, or one or more agents, or both, to negotiate an agreement with the Federal Government or the appropriate department or agency thereof for the abandonment of such uncompleted project or projects or uncompleted part of any such project or projects, or as much thereof as, under all the circumstances, and subject to the approval of the governing body, the negotiators are able to effectuate. Such agreement shall fix the terms of such abandonment; provide that all costs and other claims and obligations incurred in connection with the project or projects, or parts thereof which are made the subject of the abandonment agreement shall be borne by the Federal Government, or by the city or county, or by both, and paid upon such terms and over such periods of time as shall be stated; such agreement shall also provide for the sale or other disposition of the property acquired by the housing authority for the project or part thereof to be abandoned and the application of any moneys derived therefrom. Such agreement shall further provide for the means of payment or retirement of any outstanding notes of the housing authority representing moneys in whole or in part expended upon the project or projects, or parts thereof, which are agreed to be abandoned. Upon the approval of the abandonment agreement by the governing body and the United States of America or the proper officer or agency thereof, or at such other time as the abandonment agreement may provide, such project, projects or parts thereof shall be abandoned. The governing body shall not approve any abandonment agreement, however, unless, either before or after the commencement of negotiations with the Federal Government as provided in this section, the electors of the city or county concerned, at any election held for the purpose, or at any general, special or other election, whether held before or after the effective date of this section, have voted or have in any manner through the voting process expressed their desire for the discontinuance or abandonment, or against the initiation, retention or reinstitution, of any public housing project or projects or parts thereof which include the project or projects or the parts thereof made the subject of the abandonment agreement. But no vote of the electors or expression of their desire through the voting process shall authorize the approval of an abandonment agreement by the governing body if, subsequent to said vote or expression of desire, the electors have voted to reinstate the public housing project or projects or parts thereof which are the subject of the abandonment agreement.

(d) A housing authority, one or more of whose housing projects or a part thereof is the subject of an abandonment agreement as provided in this section, shall be bound by the terms of that agreement, and the terms of any contract existing between the housing authority and the Federal Government, or any agency thereof, or between the housing authority and the city or county within which it has its area of operation, shall be amended to conform to such abandonment agreement, and the housing authority shall convey all property and take all other steps necessary to comply with the abandonment agreement.

SEC. 3. Section 34331 is added to said code, to read:

34331. Nothing in Sections 34329 or 34330 of this chapter shall authorize the impairment of any contract with any private person, or the contract of any note holder or bondholder; nor shall anything in such sections authorize the modification or amendment of any contract of the Federal Government, or any agency thereof, except to

the extent that such modification or amendment is agreed to by the Federal Government, or such agency."

pursuant to this chapter. Notwithstanding any law to the contrary, the agreements may extend over any period of time not to exceed 45 years from the end of the year in which any such project becomes available for occupancy.

SEC. 2. Section 34518 of said code is amended to read:

34518. A state public body may incur the entire expense of any public improvements made by it in exercising the powers granted in this chapter. Any law to the contrary notwithstanding, a state public body may make any sale, conveyance, lease, or agreement provided for in Sections 34510 to 34517, inclusive, without appraisal, public notice, advertisement, or public bidding. No state public body shall enter into an agreement with a housing authority or with the Federal Government respecting action to be taken by the state public body pertaining to powers prescribed in Sections 34510, 34511, 34512, 34513, 34514, subsection (a) of Section 34516, or in this section, unless the housing authority, or the Federal Government, has first presented to the governing body of the state public body a plan disclosing generally and approximately the following: (1) the location of each public housing project for which the cooperation and aid of the state public body is sought; (2) the size of such project and number and class or kind of buildings to be erected thereon; (3) the amount of property owned by or to be acquired by the state public body which it will be asked to dedicate, sell, convey or lease to the housing authority or the Federal Government; (4) the facilities and other works proposed to be installed, maintained or operated by the state public body adjacent to such housing project or in connection therewith; (5) any zoning changes or exceptions to building regulations and ordinances that are to be asked or required with respect to the project planned; (6) any changes in a city or county map that are to be asked or required in connection with the project planned; (7) the nature and extent of any public improvements the housing authority may request the state public body to construct in whole or in part at the expense of the state public body in connection with the project planned.

Prior to entering into any such agreement the governing body of any state public body shall hold a public hearing for the purpose of giving interested persons an opportunity to be heard as to whether such agreement should be entered into.

Notice of such hearing shall be published once a week for at least two weeks prior to the date of hearing, in a newspaper of general circulation. At least three copies of the plan submitted to the governing body shall be available for inspection by interested persons prior to the public hearing. In addition to such other notice as the governing body of a city or county may see fit to give, written notice of the public hearing shall be sent to all persons who, under the laws and ordinances of the city or county, would be entitled to written notice if the site of the planned project requires a change in an existing zone in order to be used for such public housing project.

The executed cooperation agreement shall be conclusive evidence that all proceedings prior thereto under this section have been in full compliance with this section. After the cooperation agreement is signed, in the absence of actual fraud the housing authority may make such changes in or modifications of the plan or any part thereof as it may find necessary or convenient.

"SECTION 1. Section 75032 of the Government Code is amended to read:  
75032. Every judge now retired or hereafter retiring pursuant to Section 75025, shall, during the remainder of his life, receive an allowance equal to one-half the salary payable, at the time payment of the allowance falls due, to the judge holding [which he last received as the incumbent of a] the judicial office to which he was last elected by the people. The allowance shall be paid by the State at the times and in the manner provided for the payment of salaries of justices of the Supreme Court.

SEC. 2. Section 75033 is added to said code, to read:

75033. Notwithstanding any other provisions of this chapter, if the service of a judge, who has been elected as such by a vote of the people, is discontinued by any means other than death, resignation, recall, impeachment, or retirement pursuant to this chapter, he shall have the right to elect within ninety (90) days thereafter, and without right of revocation, whether to allow his accumulated contributions to remain in the fund. Failure to make such election shall be deemed an irrevocable election to withdraw his accumulated contributions. A judge who so elects to allow his accumulated contributions to remain in the fund shall, upon his application therefor to the State Controller after attaining age 65, be retired, and receive a retirement allowance based upon the judicial service with which he is credited, in the same manner as other judges, except that his retirement allowance is an annual amount equal to 5 percent of the compensation payable, at the time payments of the allowance fall due, to the judge holding the office which the retired judge last held prior to the discontinuance of his service as judge, multiplied by the number of years of service with which the retired judge is entitled to be credited at the time of such discontinuance of his service not to exceed eight years.

SEC. 3. Section 75061 of said code is amended to read:

SEC. 4. Article 3.5 is added to Chapter 11 of".

#### Amendment No. 3

On page 5, between lines 18 and 19, insert

"75072. If, during the life of a judge who has elected to receive an optional settlement in lieu of a retirement allowance for his life alone, or during the life of a surviving spouse beneficiary under such a settlement upon whose life contingency the optional settlement elected depends, the compensation payable to the judge holding the judicial office to which the retired judge was last elected by the people prior to his retirement is increased, the amounts payable to the retired judge or to his beneficiary, or both, shall be recomputed and increased to be the actuarial equivalent of the increased amount of the retirement allowance to which the retired judge would be entitled if he had not elected an optional settlement. However, this section does not authorize any decrease in any retirement allowance or payment to any beneficiary, nor does it give any retired judge or his beneficiary any claim against the State for any increase in retirement allowance or other benefit for time prior to such increase in the compensation of the incumbent judge.

75073. Every retirement allowance payable under this chapter for time commencing on the effective date of this section to any judge who was retired for service or for disability prior to that date is hereby increased to the amount it would be if Section 75032 and Section 75061, as those sections exist on the effective date of this section, had been in effect on the effective date of the retirement of the judge to whom such retirement allowance is payable.

This section does not authorize any decrease in any retirement allowance, nor does this section give any retired judge, or his successors in interest, any claim against the State for any increase in any retirement allowance paid or payable for time prior to its effective date."

#### PROGRESS REPORT OF THE SECRETARY OF THE SENATE

SENATE, CALIFORNIA LEGISLATURE

May 19, 1953

*Hon. Harold J. Powers*

*President pro Tempore of the Senate*

DEAR SENATOR POWERS: Today is the 98th calendar day of this session. We have, including today, 23 calendar days left. Of these calendar days, there are three Saturdays and three Sundays. Should we not meet on any of these days, we will have to complete our work in 17 days.

After the 98th calendar day of the session of 1951, we met on two Saturdays, one of them being the last day of the session.

On the 98th day of 1951, we had on file 161 measures, of which we disposed of 32 on that day. Today, which is the 98th day of this session, we have only 92 measures on file.

In 1951, the Budget Bill was reported correctly enrolled by the Assembly on June 14, and approved by the Governor on the same day, which was nine days before adjournment. Joint Rule 23 of 1951, as amended, provided that "No Senate bill shall be passed by the Senate and no Assembly bill passed by the Assembly within 5 days prior to adjournment except by permission granted by a three-fourths vote and recommendation by the Committee on Rules" allowing 4 days for passage of Senate appropriation bills after the Budget was passed. This year Joint Rule 23 provides that no bill originating in either house shall be passed by that house within ten days prior to adjournment.

As noted before, we have only 23 calendar days remaining.

Respectfully submitted,

J. A. BEEK

Secretary of the Senate

#### MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, May 18, 1953

*To the Honorable Members of the Senate*

*State of California*

*Sacramento, California*

GREETINGS: I am returning herewith, without my signature,

Senate Bill No. 1434, entitled: "An act to amend Section 45053 of the Government Code, relating to employment of retired persons by cities."

My objections to this bill are as follows:

The same section of the Government Code which would be amended by this bill was amended by Assembly Bill 2056 which was approved on April 30 and is now Chapter

504, Statutes of 1953. That bill accomplished the same change in the law that would be accomplished by this. Accordingly approval of this bill would accomplish nothing and, as a consequence, I am returning it without my signature.

Respectfully submitted,

EARL WARREN, Governor

Message read.

Senate Bill No. 1434 ordered to the inactive file.

Bill read second time.

### Motion to Amend

Senator McCarthy moved the adoption of the following amendments:

#### Amendment No. 1

In line 1 of the title of the printed bill, strike out "to add Section 18596 to the Government Code,".

#### Amendment No. 2

In line 2 of the title, strike out "employees of".

#### Amendment No. 3

#### Amendment No. 4

On page 1, strike out lines 1 to 10, inclusive, and insert

"SECTION 1. The Legislature hereby finds and declares that the continued operation of the Golden Gate Bridge is of state-wide concern and serves a public purpose, inasmuch as said bridge links the northern and southern parts of the State with one continuous modern avenue for traffic, and is also a part of the state highway entering two neighboring states. The Legislature further finds and declares that the continued operation of said bridge is of vital importance to the civil defense of this State in the case of attack by any foreign power.

SEC. 2. The sum of fifteen million dollars (\$15,000,000), or so much thereof as may be necessary, of the Revenue Deficiency Reserve Fund shall constitute a reserve within said fund for expenditure for the purposes of this act.

The Director of Finance may expend when hereafter appropriated by the Legislature any of the amount so reserved by this act for the purpose of assisting the Golden Gate Bridge and Highway District to defray the cost of repair or replacement of the Golden Gate Bridge in the event that it is destroyed or damaged. None of the money reserved by this act shall be expended unless the Director of Finance finds and declares the following facts to exist:

(a) That the Golden Gate Bridge has been destroyed or damaged.

(b) That the Golden Gate Bridge and Highway District has applied the proceeds of all insurance carried by the district on the bridge to the repair or restoration of the bridge.

(c) That the amount expended pursuant to paragraph (b) above is insufficient to meet the cost of repair or restoration of the bridge.

The auditor of the Golden Gate Bridge and Highway District shall report annually to the Director of Finance the amount set aside by the district for the restoration and repair of the bridge in the event that it damaged or destroyed, and the amount reserved by this act shall be reduced by the amount so reported.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Golden Gate Bridge constitutes a vital link of the State Highway System, serving to connect the northern and southern parts of this State and as a part of the international highway paralleling the Pacific Ocean. Immediate provision for its repair and restoration, in the event it is damaged or destroyed, is essential to the defense of the Pacific Coast. It is therefore necessary for the immediate preservation of the public peace, health or safety that adequate provision be made for its restoration or repair."

Amendments read, and adopted.

Bill ordered printed, and re-referred to Committee on Governmental Efficiency.

Such lands to be conveyed to the State shall be of equal or greater value than the lands conveyed by the State. The determination of said State Lands Commission, as to the value of lands so respectively conveyed by and granted to the State of California, shall be final, and, in the event of a deficiency in value of lands conveyed to the State, said State Lands Commission is authorized to accept cash in lieu of land, for the purpose of equalizing values.

SEC. 2. The parcels of land authorized in Section 1 of this act to be granted by the State of California and the parcels of land to be granted as a condition to such grant by any person, persons, or corporation are more particularly located and will come within the north half of Section 3, Township 1 South, Range 6 West, M. ## Amendment No. 4

On page 1, strike out lines 1 to 10, inclusive, and insert

"SECTION 1. Sections 225m and 225q of the Civil Code are repealed.

SEC. 2. Chapter 2 is added to Part 3 of Division 2 of the Welfare and Institutions Code, to read:

## CHAPTER 2. COUNTY ADOPTION AGENCIES

1640. Any county may apply for, and the State Department of Social Welfare may issue pursuant to Chapter 1 of this part to any county agency designated by the county

making the application a license to perform the home-finding and placement functions specified in subdivision (b) of Section 1620 of this code, to investigate, examine, and make reports upon petitions for adoption filed in the superior court, to act as a placement agency in the placement of children for adoption, to accept relinquishments for adoption, and to perform such other functions in connection with adoption as the State Department of Social Welfare deems necessary, or to do any of them.

In order to extend the services of licensed county adoption agencies to the maximum number of counties practicable within the limits of funds appropriated therefor the State Department of Social Welfare may license a county adoption agency to operate in such other counties in the general area of the agency as it deems conducive to the effective and efficient administration of the adoption program.

A license issued to a county agency pursuant to this section constitutes the holder thereof a "county adoption agency," and the holder shall be deemed to be an "organization" within the meaning of this code and of Chapter 2, Title 2, Part 3, Division 1, of the Civil Code.

1641. The cost of administering the adoption programs undertaken by a county under license issued pursuant to Section 1640 of this code shall be borne by the State in the amount found necessary by the State Department of Social Welfare for proper and efficient administration. The State shall reimburse the county for all such necessary administrative costs after deducting therefrom the amount of fees collected by the county agency pursuant to Section 225p of the Civil Code.

1642. The State shall reimburse each licensed county adoption agency for the cost of care of children relinquished for adoption to the county adoption agency from the time of relinquishment or action in lieu thereof until placement or other disposition. However, the amount payable to any county adoption agency on any claim for such care shall not exceed three hundred dollars (\$300) on the average per child, and no reimbursement shall be made for the cost of care of any child for whose care the county has previously claimed reimbursement, regardless of the length of time the county has provided care for the child.

In providing state funds for the cost of care of children relinquished for adoption it is the intent of this section that the cost of care of a child shall not be transferred to the adoption program from any other publicly supported program unless there is reason to believe that the child can be successfully placed for adoption.

1643. County claims for reimbursement for expenses incurred for the operation of a licensed county adoption agency shall be filed with the department at the time and in the manner specified by the department and the claims shall be subject to audit by the Department of Social Welfare. All claims for cost of care shall be payable from the proper appropriation or appropriations made for the fiscal year in which the claims are filed, regardless of the time at which the expenses upon which the claims are based are incurred by the counties.

The State Department of Social Welfare shall adopt such rules as may be necessary to determine the cost of administration and the cost of care of children relinquished for adoption and to provide for the presentation, allowance, and payment of such claims.

If any grants-in-aid are made by the Federal Government for the cost of administering an adoption program or for the cost of care of children relinquished for adoption, the amount of the federal grant shall first be applied to defer the cost of administration or of care and the remainder of the cost, if any, shall be borne by the State.

SEC. 3. This act shall become operative July 1, 1954."

Amendments read, and adopted.

#### PROCEEDINGS UNDER CALL OF THE SENATE MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE  
SACRAMENTO, May 20, 1953

*To the Senate of the State of California  
Sacramento, California*

GENTLEMEN: I am transmitting to you herewith a copy of a message with reference to

**Senate Bill No. 1711**, entitled, "An act to amend Section 11732 of the Insurance Code, relating to premium rates of workmen's compensation insurance."

This bill, with my message relative thereto, I (through my Legislative Secretary) delivered to Edwin J. Regan, Member of the Senate, at 9.15 o'clock p.m. on the 19th day of May, 1953, at which time your honorable body had adjourned for the day but not for the session.

Respectfully submitted,

EARL WARREN, Governor

STATE OF CALIFORNIA, GOVERNOR'S OFFICE  
SACRAMENTO, May 19, 1953

*To the Honorable Members of the Senate  
State of California  
Sacramento, California*

GREETINGS: I am returning herewith, without my signature,

**Senate Bill No. 1711**, entitled, "An act to amend Section 11732 of the Insurance Code, relating to premium rates of workmen's compensation insurance."

My objections to this bill are as follows:

For almost forty years the State has fixed minimum premium rates for workmen's compensation insurance for the purpose of preventing indiscriminate rate cutting that would affect the solvency of insurance carriers. There has been no difficulty in administering this law and no great complaint has been made against it until recently when an effort has been made to include in the minimum rates a provision for profits and contingencies. This bill seeks to accomplish that purpose. Neither the percentage of profit nor the kind or character or amount of contingencies are defined in the bill, nor are standards established therein for the guidance of the Commissioner. It merely provides "such premium rates shall include a reasonable margin for underwriting profit and contingencies." There can be no question of the present right of the insurance carriers to include in their premium rates a margin for both profits and contingencies as the rates now fixed by the Commissioner are minimum rates, but there is no sound reason why the law should compel them to do so.

If this bill should become law, it would not only be necessary for the Commissioner to determine what profits the insurance carriers are entitled to, but it would subject him to constant pressure from industry for an increase in profits. The net effect of the bill would be to raise the insurance rates for workmen's compensation insurance by several million dollars annually, not through competition or free enterprise but by mandate of the State. It is argued that because of the competitive nature of the business

as a practical matter the minimum rates established by the Commissioner have actually become maximum rates in practice. This is not convincing because the carriers have the legal right to include in their rates any profits they desire. It is also argued that approximately thirty states in the Union now include profits and contingencies in state rate regulation, but I am advised that all of these states have a form of rate regulation differing from that in California. This is the only state that fixes minimum rates.

Under the circumstances I am of the opinion it is not in furtherance of free enterprise to fix minimum rates in this manner and that if it were, there are no standards for the guidance of the Commissioner in determining the measure of profits or the character or amount of contingencies.

Respectfully submitted,

EARL WARREN, Governor

## REQUEST FOR UNANIMOUS CONSENT

Senator Hatfield asked for, and was granted, unanimous consent to have the following opinion of the Legislative Counsel, regarding Powers and Duties of the Attorney General, printed in the Journal:

## OPINION OF THE LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL  
SACRAMENTO, May 18, 1953

*Hon. George J. Hatfield*  
*Senate Chamber*

*Powers and Duties of the Attorney General—No. 10452*

DEAR SENATOR HATFIELD: You have furnished us with a copy of a document entitled "Consideration of the Provisions of Senate Bill 1657 and Assembly Bill 863 Creating a Department of Water Resources Which Transfer Functions of the Attorney General to a 'State Water Attorney' " submitted to certain legislators by Assistant Attorney General Thomas V. Martin.

You ask us to comment on that portion of the document which argues that the provisions of the bills mentioned above creating a State Water Attorney represent an "unconstitutional encroachment upon the powers of the Attorney General."

The full argument of the Assistant Attorney General on this constitutional point is set forth in two short paragraphs which read as follows:

"Under Article V, Section 21 of the California Constitution it is provided that '*the Attorney General shall be the chief law officer of the State.*' The provisions of this present bill to prohibit the Attorney General from representing the component agencies and boards of the new department cuts directly across *this constitutional provision* and takes away from him, as the chief law officer, the authority to represent or to appear in matters involving particular entities of the State.

"It is my considered opinion that insofar as this bill proposes to deprive the Attorney General of such right of representation, it is an unconstitutional usurpation of his power as Attorney General."  
(Italics added.)

The argument made by the quoted language appears to be that because the Constitution refers to the Attorney General as the chief law officer of the State, the Legislature cannot authorize a state department to handle

its legal affairs with its own legal staff independent of the Attorney General. We have previously considered not only this point but other pertinent constitutional questions in our opinion to you under the heading of "Legal Staffs of State Agencies—No. 1908." We see nothing in the argument quoted above which would cause us to change our opinion. The pertinent portion of our previous opinion, which states our view, reads as follows:

"At the outset we are faced with a consideration of the powers and duties of the Attorney General under the Constitution. Prior to 1934 the Constitution, although it specifically provided for an Attorney General, did not specify his powers or duties. The courts of other states whose constitutions provide for an attorney general but fail to specify his duties have differed over the question of whether the respective state legislatures could constitutionally provide that specified state agencies could use counsel other than the Attorney General.<sup>1</sup> An early California case held that since the framers of our Constitution provided for an Attorney General they intended him to perform the duties customarily performed by attorneys general in other states, and the Legislature could not compel him to perform duties entirely foreign to his office.<sup>2</sup> Neither that case nor any other California case of which we are aware is authority for the proposition that the Legislature cannot constitutionally provide that the legal affairs of certain state agencies shall be handled exclusively by attorneys employed by, and responsible to, the heads of such agencies. On the contrary, statements made by California courts indicate a conviction that the 'inherent' or 'common law' duties of the Attorney General would not prevent the Legislature from so providing.<sup>3</sup>

"We are therefore of the opinion that the 'common law' or 'inherent' powers and duties of the Attorney General would not prevent the Legislature from authorizing a state agency to handle its own legal affairs through its own counsel. Support for this conclusion may be found from the fact that the published opinions of the Attorney General dealing with this problem have decided each question on a statutory basis and have not claimed broad constitutional powers to conduct all the State's legal affairs to the exclusion of counsel employed by state agencies authorized by the Legislature to employ counsel.<sup>4</sup>

"In 1934 an amendment to the Constitution was adopted which added Section 21 to Article V specifying some duties of the Attorney General and referring to him as 'the chief law officer of the State.'

"This constitutional provision did not, in our opinion, restrict or diminish the Legislature's power to provide that specified state agencies might handle their own legal affairs through their own legal counsel. Throughout Section 21 of Article V the emphasis is on the uniform enforcement of state laws *at the county level*. This is amply

<sup>1</sup> See cases collected in annotation, 137 A.L.R. 818.

<sup>2</sup> *Love v. Baehr* (1874), 47 Cal. 364.

<sup>3</sup> See, for example, *Pierce v. Superior Court* (1934), 1 Cal. 2d 759, 761, where the court said:

"The Attorney General as the chief law officer of the State has broad powers derived from the common law, and in the absence of any legislative restriction, has the power to file any civil action or proceeding directly involving the rights and interests of the State, or which he deems necessary for the enforcement of the laws of the State, the preservation of order, and the protection of public rights and interests." <sup>4</sup> See, for example, 12 Ops. Att'y. Gen. 176.

supported by the ballot argument submitted to the voters at the time the section was adopted. Even a casual reading of that argument will establish the fact that uniform law enforcement in the counties was the objective of the amendment.<sup>5</sup>

"An argument designed to reach an opposite conclusion might be based on the clause contained in the first sentence of Section 21 of Article V declaring that 'the Attorney General shall be the chief law officer of the State and it shall be his duty to see that the laws of the State of California are uniformly enforced in every county of the State.' We do not believe such an argument would be upheld. In the first place the quoted clause clearly emphasizes an intent to insure uniform law enforcement *at the county level*. Furthermore, the appellate courts of this State have indicated that the mere designation of the Attorney General as 'chief law officer of the State' confers no broad general powers to handle all the State's legal affairs."<sup>6</sup>

Very truly yours,

Under the existing law provision is made for the audit of the books and accounts of school districts by Section 5009 of the Education Code, or, in lieu thereof, such audits as the Department of Finance deems sufficient to determine the validity of the allocation of state funds for school purposes. These audits are necessary in order to determine properly whether adjustments in future apportionments of state school funds to school districts for the support of the pupil schools are required. Under Section 31 of Chapter 1259 of the Statutes of 1951, the existing law providing for the audit of school district funds will remain in effect only until July 1, 1953. "2181. The board of supervisors, directly or through an authorized investigator, shall upon receipt of an application for aid, promptly, without any unnecessary delay, and with all diligence, make the necessary investigation. Such investigation shall be completed within 60 days after receipt of the application.

The board shall upon receipt of the report of the investigation determine the ability of responsible relatives to contribute to the support of applicant and designate the amount of aid, if any, to be granted. The maximum degree of liability of the responsible relative shall be determined by "Relatives' Contribution Scale." In determining ability to contribute, the financial circumstances of responsible relatives shall be given due consideration and, in unusual cases, contributions at less than the amount fixed by "Relatives' Contribution Scale" may be made as the board of supervisors may deem justifiable. By Senator Byrne:

## Senate Resolution No. 124

Requesting a report from the Department of Education and the Department of Natural Resources, with respect to the restoration, preservation and administration of the Bidwell Mansion and surrounding grounds, property of the State of California, in the City of Chico

WHEREAS, The home of General and Mrs. John Bidwell, constructed at Rancho Chico during the years 1865 to 1868, in the City of Chico, Butte County, commonly

known as "Bidwell Mansion," together with the surrounding grounds, is a site of historical interest, title to which is vested in the State of California; and

WHEREAS, During the lifetime of General and Mrs. Bidwell, the Bidwell Mansion was a social and cultural center of Northern California, and particularly of the upper Sacramento Valley, a place made famous by a gracious California hospitality; and

WHEREAS, Said mansion and grounds were acquired by the State on August 30, 1923, pursuant to a legislative appropriation; are presently under the jurisdiction of the Department of Education, and are administered by the Chico State College; and

WHEREAS, John Bidwell was a pioneer of 1841, who came West before the days of the Gold Rush, as a leader of the first emigrant train to cross the continent for the purpose of settlement in what is now the State of California; and

WHEREAS, John Bidwell, with an "unbounded faith in the future of the West," had an active part in the acquisition of California by the United States, as well as the admission of California as a State of the Union; and

WHEREAS, John Bidwell was for more than half a century an outstanding citizen of this State, whose many accomplishments, particularly as respects agricultural development, are now coming to be more fully recognized and appreciated; and

WHEREAS, John Bidwell was a friend to education and through the donation of land adjacent to his home secured for Butte County the site of a state college; and

WHEREAS, The Bidwell Mansion is now a part of the program of Chico State College which is a regional institution concerned with the use of the historical heritage of this region as a means for greater appreciation of the great past of California and its use in the building of a greater future; and

WHEREAS, It appears proper that the State of California should establish a fitting memorial to this great pioneer, and to his kindly wife, and

WHEREAS, It appears desirable that the Legislature be advised whether the restoration of the Bidwell Mansion and grounds, as near as may be to the condition in which they were during the lifetime of General and Mrs. Bidwell, and their maintenance thereafter as a State Historical Site, would constitute such a memorial; now, therefore, be it

*Resolved by the Senate of the State of California,* That the Department of Education, the California State Park Commission of the Department of Natural Resources are requested to make a survey of the Bidwell Mansion and grounds, and to report to the Legislature, on or before March 15, 1954, upon the following:

(a) The need for and the possibility and desirability of the restoration and preservation of said mansion and surrounding grounds, including the cost involved in any such restoration;

(b) The importance of said mansion and grounds as an historical site, and as a place for the study of the history and culture of California and the suitability of the dedication thereof, upon restoration, as a memorial to General and Mrs. John Bidwell; and be it further

*Resolved,* That other agencies of the State Government, including the State Library and the Division of Architecture, are requested to cooperate with and to furnish information and advice to the aforementioned departments and commission in the making of said survey and report; and be it further

*Resolved,* That said departments and commission should appoint advisory committees of interested citizens to assist and advise them with respect to said survey and report; and be it further

*Resolved,* That the Secretary of the Senate be instructed to forward copies of this resolution to the State Department of Education, the California State Park Commission, Department of Natural Resources, the Department of Public Works, and the President of Chico State College.

DEPARTMENT OF MOTOR VEHICLES, STATE OF CALIFORNIA  
May 21, 1953

Hon. J. A. Beek  
Secretary of the Senate  
State Capitol Building  
Sacramento, California

DEAR MR. BEEK: With reference to your letter of April 6 transmitting a copy of Senate Resolution 95 adopted in the Senate on April 3 relative to requesting the Department of Motor Vehicles to make an investigation concerning the feasibility, advantages, and methods of reflectorizing license plates, I regret to advise that it is not possible to make a full and complete investigation of the advantages of reflectorizing license plates in time to present a final report at the current session.

Therefore, we are transmitting herewith a preliminary report covering the facts that the Department has been able to gather to date. The subject is technical and we are advised by the Materials and Research Engineer of the Division of Highways that no satisfactory artificial weathering tests have been made and such tests would have to be made under actual service conditions which of course means that a period of time must elapse. They advise that it would require from one to two years to reach any conclusions as to relative durability.

As a result, the only information as to durability we were able to obtain was from the State of Connecticut which has been included as part of this preliminary report.

Very truly yours,

A. H. HENDERSON, Director

Report ordered filed with the Secretary of the Senate.

DEAR SIR: Pursuant to Senate Resolution No. 120 read and adopted June 23, 1951, by the Senate of California at the 1951 Regular Session of the Legislature, the Senate Interim Committee on State and Local Taxation herewith submits Part Seven of its report. This part of the committee's report is entitled "Fiscal Problems of Urban Growth in California."

The report examines the fiscal problems which have arisen from the growth of urban unincorporated areas in five selected counties in the State. It further attempts to analyze the extent to which extra measures of services have been provided within incorporated cities, in unincorporated urban areas, and in rural areas, by various units of local government. An attempt is also made to trace the extent to which the costs of these extra amounts of services may impose burdens upon taxpayers residing in areas not directly benefitted.

The committee takes this opportunity to express its appreciation for the generous and wholehearted cooperation of the local government officials who assisted the staff in preparing this report. The cooperation of the League of California Cities and the County Supervisors' Association of California is also gratefully acknowledged.

2. Either in whole or in part for the common benefit of two or more zones, hereinafter referred to as participating zones, and if in part only, what part; or

3. Either in whole or in part for the benefit of a single zone, and if in part only, what part.

SEC. 18. For the purpose of acquiring authority to proceed with the establishment of a zone, or any such project, as requested by petition, the board shall adopt a resolution specifying its intention to undertake such project, together with the engineering estimates of the cost of same to be borne by the particular zones or participating zones and fixing a time and place for public hearing of said resolution and which shall refer to a map or maps showing the general location and general construction of said project. Notice of such hearing shall be given by publication one week for two consecutive weeks prior to said hearing, the last publication of which notice must be at least seven (7) days before said hearing, in a newspaper of general circulation designated by the board, circulated in such zone or each of said participating zones, if there be such newspaper, and if there be no such newspaper then by posting notice for two consecutive weeks prior to said hearing in five public places designated by the board, in such zone or in each of said participating zones. Said notice must designate a public place in such zone or in each of said participating zones where a copy or copies of the map or maps of said joint project may be seen by any interested person. Said map must be posted in each of said public places so designated in said notice at least two weeks prior to said hearing.

At the time and place fixed for the hearing, or at any time to which said hearing may be continued, the board shall consider all written and oral objections to the proposed project. Upon the conclusion of the hearing the board may abandon the proposed project or proceed with the same, unless prior to the conclusion of said hearing written protests against the proposed project signed by the owners of at least 50 percent of the assessed value of property within such zone or participating zones be filed with the board, in which event further proceedings relating to such project must be suspended for not less than six months following the date of the conclusion of said hearing, or said proceeding may be abandoned in the discretion of the board. Protests may be withdrawn before the conclusion of the hearing.

SEC. 19. The board of supervisors shall have power, in any year:

1. To levy assessments in each or any of said zones and participating zones to pay the cost and expenses of carrying out, constructing, maintaining, operating, extending,

repairing or otherwise improving any or all works or improvements established or to be established within or on behalf of said respective zones, according to the benefits derived or to be derived by said respective zones by a levy or assessment upon all real property within a zone or participating zones, including both land and improvements thereon. It is declared that for the purposes of any assessment levied under this subdivision, the property so taxed or assessed within a given zone is equally benefited.

2. To levy assessments upon all real property within a zone or participating zones in each or any of said zones, according to the special benefits derived or to be derived by the specific properties therein, to pay the cost and expenses of carrying out any of the objects or purposes of this act of special benefit to such zone or zones, including the constructing, maintaining, operating, extending, repairing, or otherwise improving any or all works of improvement established or to be established within or on behalf of said respective zone or zones.

Said assessments shall be levied and collected together with, and not separately from taxes for county purposes, and the revenues derived from said district assessments shall be paid into the county treasury to the credit of said district, or the respective zones thereof, and the board shall have the power to control and order the expenditure thereof for said purposes; provided, however, that no revenues, or portions thereof, derived in any zone from the assessments levied under the provisions of subdivision 1 or 2 of this section shall be expended for constructing, maintaining, operating, extending, repairing or otherwise improving any works or improvements located in any other zone, except in the case of joint projects, or for projects authorized or established outside such zone, or zones, but for the benefit thereof. In cases of projects joint to two or more zones, such zones will become, and shall be referred to as participating zones.

SEC. 20. (1) Whenever the board determines that a bonded indebtedness should be incurred to pay the cost of any work or improvement in any zone or zones, the board may by resolution, determine and declare the respective amounts of bonds necessary to be issued in each zone in order to raise the amount of money necessary for each work or improvement and the denomination and the maximum rate of interest of said bonds. The board shall cause a copy of the resolution, duly certified by the clerk, to be filed for record in the office of the recorder of Contra Costa County within five (5) days after its issuance. From and after said filing of said copy of said resolution the board shall be deemed vested with the authority to proceed with the bond election.

(2) After the filing for record of the resolution specified in subdivision (1) of this section, the board may call a special bond election in said zone or participating zones at which shall be submitted to the qualified electors of said zone or participating zones the question whether or not bonds shall be issued in the amount or amounts determined in said resolution and for the purpose or purposes therein stated. Said bonds and the interest thereon shall be paid from revenue derived from annual assessments levied as provided in this act.

(3) Said board shall call such special bond election by ordinance and not otherwise and submit to the qualified electors of said zone or participating zones, the proposition of incurring a bonded debt in said zone or participating zones in the amount and for the purposes stated in said resolution and shall recite therein the objects and purposes for which the indebtedness is proposed to be incurred; provided, that it shall be sufficient to give a brief, general description of such objects and purposes, and refer to the recorded copy of such resolution adopted by said board, and on file for particulars; and said ordinance shall also state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be incurred therefor, and the maximum rate of interest to be paid on said indebtedness, and shall fix the date on which such special election shall be held, and the form and contents of the ballot to be used. The rate of interest to be paid on such indebtedness shall not exceed five percent (5%) per annum. For the purposes of said election, said board shall in said ordinance establish special bond election precincts within the boundaries of each zone and participating zone and may form election precincts by consolidating the precincts established for general elections in said district to a number not exceeding six general precincts for each such special bond election precinct, and shall designate a polling place and appoint one inspector, one judge and one clerk for each such special bond election precincts.

In all particulars not recited in said ordinance, such special bond election shall be held as nearly as practicable in conformity with the general election laws of the State.

Said board shall cause a map or maps to be prepared covering a general description of the work to be done, which said map shall show the location of the proposed works and improvements and shall cause the said map to be posted in a prominent place in the county courthouse for public inspection for at least thirty (30) days before the date fixed for such election.

Said ordinance calling for such special bond election shall, prior to the date set for such election, be published in a newspaper, of general circulation circulated in each zone and participating zone affected for six consecutive times if published in a daily newspaper of general circulation, or two times if published in a weekly newspaper of general circulation. The last publication of such ordinance must be at least fourteen (14) days before said election, and if there be no such newspaper, then such ordinance shall be posted in five (5) public places designated by the board, in each zone and participating zone for at least thirty (30) days before the date fixed for

such election. No other notice of such election need be given nor need polling place cards be issued.

Any defect or irregularity in the proceedings prior to the calling of such special bond election shall not affect the validity of the bonds authorized by said election. Where a project affects a single zone only, if at such election two-thirds ( $\frac{2}{3}$ ) of the votes cast in said zone on the proposition of incurring a bonded indebtedness are in favor thereof, then bonds for such zone for the amount stated in such proceedings shall be issued and sold as in this act provided. Where the incurring of bonded indebtedness by participating zones is to be determined at such election, no bonds for any of such participating zones shall be issued or sold unless two-thirds ( $\frac{2}{3}$ ) of the votes cast on the proposition in each such participating zone are in favor of incurring the bonded indebtedness to be undertaken by such zone.

SEC. 21. The board shall, subject to the provisions of this act, prescribe by resolution the form of said bonds, which must include a designation of the zone or participating zone affected, and of the interest coupons attached thereto. Said bonds shall be payable annually or semiannually at the discretion of the board each and every year on a day and date, and at a place to be fixed by said board, and designated in such bonds, together with the interest on all sums unpaid on such date until the whole of said indebtedness shall have been paid.

The board may divide the principal amount of any issue into two or more series and fix different dates for the bonds of each series. The bonds of one series may be made payable at different times from those of any other series. The maturity of each series shall comply with this section. The board may fix a date, not more than two years from the date of issuance, for the earliest maturity of each issue or series of bonds. Beginning with the date of the earliest maturity of each issue or series, not less than one-fortieth of the indebtedness of such issue or series shall be paid every year. The final maturity date shall not exceed forty (40) years from the time of incurring the indebtedness evidenced by each issue or series.

The bonds shall be issued in such denomination as the board may determine, except that no bonds shall be of a less denomination than one hundred dollars (\$100), nor of a greater denomination than one thousand dollars (\$1,000), and shall be payable on the days and at the place fixed in said bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of five per centum (5%) per annum, and shall be made payable annually or semiannually, and said bonds shall be numbered consecutively and shall be signed by the chairman of the board, and countersigned by the county auditor, and the seal of the county shall be affixed thereto by the clerk of the board. Either or both such signatures may be printed, engraved or lithographed. The interest coupons of said bonds shall be numbered consecutively and signed by the said auditor by his printed, engraved or lithographed signature. In case any such officers whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such bonds and coupons, and signatures or countersignatures shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of the bonds.

SEC. 22. The board may issue and sell the bonds of any such zones authorized as hereinbefore provided at not less than par value, and the proceeds of the sale of such bonds shall be placed in the treasury of the county to the credit of said district and the respective participating zones thereof, for the uses and purposes of the zone or zones voting said bonds; and the proper record of such transactions shall be placed upon the books of said county treasurer, and said respective zone funds shall be applied exclusively to the purposes and objects mentioned in the ordinance calling for such special bond election as aforesaid, subject to the provisions in this act contained. Payments from said zone funds shall be made upon demands prepared, presented, allowed and audited in the same manner as demands upon the funds of the county.

SEC. 23. Any bonds issued under the provisions of this act, and the interest thereon, shall be paid by revenue derived from an annual assessment levied as provided in subdivision 1 of Section 19 of this act. No zone nor the property therein shall be liable for the bonded indebtedness of any other zone, nor shall any moneys derived from assessments in any of the several zones be used in payment of principal or interest or otherwise of the bonded indebtedness chargeable to any other zone.

SEC. 24. The board shall levy an assessment each year sufficient to pay the interest and such portion of the principal of said bonds as is due or to become due before the time for making the next general tax levy. Such assessments shall be levied and collected in the respective zones of issuance together with and not separately from taxes for county purposes, and when collected shall be paid into the county treasury of said county to the credit of the zone of issuance, and be used for the payment of the principal and interest on said bonds, and for no other purpose. The principal and interest on said bonds shall be paid by the county treasurer of said county in the manner provided by law for the payment of principal and interest on bonds of said county.

SEC. 25. The provisions of law of this State, prescribing the time and manner of levying, assessing, equalizing and collecting county property taxes, including the sale of property for delinquency, and the redemption from such sale, and the duties of the several county officers with respect thereto, are, so far as they are applicable, and not in conflict with the specific provisions of this act, hereby adopted and made a

part hereof. Such officers shall be liable upon their several official bonds for the faithful discharge of the duties imposed upon them by this act. All property exempt from taxation for county purposes under the provisions of the Revenue and Taxation Code of the State of California is exempt from assessment for the purposes of this act. Property used for free public libraries and free museums, growing crops, property used exclusively for public schools, and such as may belong to this State, or to any county, city and county, or municipal corporation within this State shall be exempt from assessment, except such lands and the improvement thereon located outside of the county, city and county, or municipal corporation owning the same as were subject to taxation at the time of the acquisition of the same by said county, city and county, or municipal corporation; provided, that no improvements of any character whatever constructed by any county, city and county, or municipal corporation shall be subject to assessment.

SEC. 26. A zone formed or proposed to be formed under this act, or the acquisition of any property or the construction of any improvement thereby, shall not be subject to any of the provisions of the District Investigation Law of 1933.

SEC. 27. The bonds issued for any zone thereof pursuant to this act, shall be legal investments for all trust funds, and for the funds of all insurance companies, banks, both commercial and savings, and trust companies, and for the state school funds, and whenever any money or funds may by law now or hereafter enacted be invested in bonds of cities, cities and counties, counties, school districts or municipalities in the State of California, such money or funds may be invested in the said bonds issued in accordance with the provisions of this act, and whenever bonds of cities, cities and counties, counties, school districts or municipalities, may by any law now or hereafter enacted be used as security for the performance of any act, such bonds may be so used.

This section of this act is intended to be and shall be considered the latest enactment with respect to the matters herein contained and any and all acts or parts of acts in conflict with the provisions hereof are hereby repealed.

SEC. 28. All bonds issued under the provisions of this act shall be free and exempt from all taxation within the State of California.

SEC. 29. All contracts for any improvement or unit of work when the cost thereof according to the estimate of the engineer, will exceed two thousand dollars (\$2,000), shall be let to the lowest responsible bidder or bidders in the manner hereinafter provided. The board shall first determine whether such contract shall be let as a single unit for the whole of the work, or shall be divided into severable convenient parts, or both, according to the best interests of the zone. The board shall make call for bids and advertise such call by three (3) insertions in a daily newspaper of general circulation or by two (2) insertions in a weekly newspaper of general circulation printed and published in said district inviting sealed proposals for the construction or performance of the improvement or work before any contract is made therefor. Such call for bids shall state whether such work is to be performed as a unit for the whole thereof or or shall be divided into severable convenient specific parts, or both, as stated in the call. The board may let such work by single contract for the whole thereof as a unit or it may divide such work into severable convenient parts by separate contracts, as stated in such call, according to the best interests of the district. The board shall require the successful bidder or bidders to file with the board good and sufficient bonds to be approved by the board conditioned upon the faithful performance of the contract and upon the payment of their claims for labor and material in connection therewith, such bonds to contain the terms and conditions set forth in Title 1, Division 5, Chapter 3 of the Government Code and to be subject to the provisions of that chapter. The board shall also have the right to reject any and all bids. In the event no proposals are received pursuant to advertisement therefor, or the estimated cost of such work does not exceed the sum of two thousand dollars (\$2,000), or the work consists of emergency work necessary in order to protect life and property from impending flood damage, the board of supervisors may, without advertising for bids therefor, have said work done by day labor, under the direction of the board, by contract, or by a combination of the two. The board shall have the power to acquire in the open market without advertising for bids therefor, materials, equipment and supplies for use in any work or for any other purpose; provided, however, that materials and supplies for use in any new construction work or improvement, except work referred to in the preceding sentence, may not be purchased if the cost thereof exceeds two thousand five hundred dollars (\$2,500), without advertising for bids and awarding the contract therefor to the lowest responsible bidder.

SEC. 30. Any improvement for which bonds are voted under the provisions of this act, shall be made in conformity with the report, plans, specifications and map theretofore adopted, as above specified, unless the doing of any of such work described in said report, shall be prohibited by law, or be rendered contrary to the best interests of the zone by some change of conditions in relation thereto, subsequent to the date of filing the report, plans, specifications and map theretofore adopted, in which event the board of supervisors may order necessary changes made in such proposed work or improvements and may cause any plans and specifications to be made and adopted therefor.

SEC. 31. Whenever bonds have been authorized by any zone or participating zone and said bonds have been issued as in this act authorized, and the board shall by resolution determine that additional bonds should be issued for carrying out the work

of storm drainage, or for any of the purposes of this act, the board may again proceed as in this act provided, and subject to the qualified voters of said zone or participating zone, the question of issuing additional bonds in the same manner and with like procedure as hereinbefore provided, and all the above provisions of this act for the issuing and sale of such bonds, and for the expenditure of the proceeds thereof, shall be deemed to apply to such issue of additional bonds.

SEC. 32. Should a proposition for issuing bonds for any zone or participating zones submitted at any election under this act fail to receive the requisite number of votes of the qualified electors voting at such election to incur the indebtedness for the purpose specified, the board shall not for six months after such election call or order another election in such zone or participating zone for incurring indebtedness and issuing bonds under the terms of this act for the same objects and purposes.

SEC. 33. The board may, with the consent of any holder or holders of outstanding bonds of the district, exchange refunding bonds bearing a lower rate of interest for such outstanding bonds.

Whenever any holder of outstanding bond or bonds shall have consented to such exchange, the board may, by resolution entered in its minutes, order the refunding of such bonds. The resolution shall designate the numbers, denominations, dates of maturity and aggregate principal amounts of the bonds so to be refunded and shall provide for the issuance of refunding bonds in exchange therefor, the form, numbers, denominations, dates of maturity and aggregate principal amounts of which shall be the same as the bonds so to be refunded. The resolution shall also fix the rate of interest said refunding bonds shall bear, which rate shall be less than the rate provided in the bonds to be refunded. The resolution shall also fix the form of the interest coupons attached to said refunding bonds, which shall be the same as the bonds so to be refunded, excepting that the rate and amounts of interest shall be less as hereinabove provided.

The refunding bonds shall be signed by the chairman of the board or such other member of the board as said board may by resolution designate, and shall be countersigned by the county treasurer, and the seal of the county shall be affixed thereto. The interest coupons shall be numbered consecutively and signed by the treasurer of said district by his engraved or lithographed signature. In case any officer whose signature or countersignature appears on said bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signature or countersignature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of the bonds.

Each refunding bond may be exchanged for its corresponding outstanding bond as the board by agreement with the holder of such outstanding bond may determine, except that in effecting such exchange, any and all matured coupons on said refunding bonds shall be detached and canceled and the principal and accrued interest of both issues shall be accepted at par value and the board shall pay said holder in cash out of moneys in the bond interest fund of the zone an amount equal to the difference between the interest on the outstanding bond and on the refunding bond accrued to the date of such exchange.

When any refunding bonds shall have been exchanged, taxes shall be levied and collected to pay the principal and interest thereof as provided by Section 24, all the provisions of which section shall apply to said refunding bonds to the same extent as to original issues.

The refunding bonds shall also be legal investments for fiduciaries and others as provided in Section 27.

SEC. 34. The repeal or amendment of this act shall not in any way affect or release any of the property in any zone thereof from the obligations of any outstanding bonds or indebtedness until all such bonds and outstanding indebtedness have been fully paid and discharged.

#### Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Assembly Bill No. 79:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE  
SACRAMENTO, April 29, 1953

*To the Honorable Members of the Senate  
Sacramento, California*

GENTLEMEN:

**Assembly Bill No. 79**, "An act making an appropriation for the support of the Local Allocations Division of the Department of Finance, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

Assembly Bill 79 makes an appropriation from the School Building Loan Fund for additional support of the Local Allocations Division, Department of Finance.

The changes in the law relating to school buildings, enacted at the 1951 Session of the Legislature, have required additional work in the Local Allocations Division and it is necessary to provide the additional funds to meet this added expenditure.

As present funds available to the State Allocations Division are exhausted, I suggest that the Legislature might well consider Assembly Bill No. 79 before final enactment of the Budget Bill.

Respectfully submitted,

EARL WARREN, Governor

*Hon. Goodwin J. Knight, President of the Senate  
State of California, State Capitol,  
Sacramento, California*

**MR. PRESIDENT:** The Senate Committee on Local Governmental Agencies, created by Senate Resolution No. 188, 1951 Regular Session, submits herewith its first and final report.

The membership of the committee consisted of Senators Brown, Regan, Miller, Ed. C. Johnson, and Mayo. The committee at its organizational meeting elected the undersigned, Charles Brown, as chairman.

The committee met one time only and established the policy of offering the cooperation of the committee and its facilities and powers to assist any local governmental agency requesting same.

It was apparently not necessary for the committee to perform any service, and no further meetings were held. With the exception of a small amount of secretarial service, the committee had no expenses. We therefore wish to be discharged as a committee, and request that the balance of the appropriation be returned to the proper fund of the State.

Respectfully submitted,

CHARLES BROWN, Chairman  
Senate Interim Committee on  
Local Governmental Agencies

## REPORT OF LEGISLATIVE BUDGET COMMITTEE

LEGISLATIVE BUDGET COMMITTEE, CALIFORNIA LEGISLATURE  
STATE CAPITOL, SACRAMENTO, May 18, 1953

*Hon. Ben Hulse, Chairman*  
*Senate Finance Committee, State Capitol*  
*Sacramento, California*

DEAR SENATOR HULSE: A Senate Finance Committee resolution adopted March 4, 1953, requested the Legislative Auditor to be responsible for the preparation of a report by the Pacific Telephone and Telegraph Company studying the California Highway Patrol mobile radio communication system. I have interpreted that responsibility to be to assist in securing a report for the Legislature which would, first, provide the basis for an objective evaluation of present costs of the Highway Patrol communication system compared with the cost of comparable services as provided by the Pacific Telephone and Telegraph Company on a lease basis and, secondly, to show what the cost to the State would be for the provision of an improved communication system on a lease basis to meet possible additional requirements of the Highway Patrol as determined by the Pacific Telephone and Telegraph Company in cooperation with the Highway Patrol.

In making a comparison of the cost of present service as provided by the California Highway Patrol with what the cost would be on a lease basis, the Pacific Telephone and Telegraph Company has found it impractical to design a proposal which would not also include an augmented maintenance system. With this exception, Plan I of the Telephone Company would simply substitute leased service for state-owned and operated service without increasing or extending the existing communication system. It was decided that this office in cooperation with the Division of Communications, Department of Finance, would provide figures as to the present cost of operation of the communication system of the California Highway Patrol, in order that a comparison might be made with similar service by the Telephone Company. The cost to the State to operate the communication system of the California Highway Patrol on a comparable basis with the leased operation shown in Plan I of the report of the Pacific Telephone and Telegraph Company provides, first, that the Pacific Telephone and Telegraph Company would purchase the existing equipment and, secondly, that it would operate the system under lease.

The Pacific Telephone and Telegraph Company has offered to purchase this equipment for \$736,000. It has offered to subsequently operate and maintain this communication system for \$374,276 annually.

By comparison, the cost to the State to operate the existing communication system of the California Highway Patrol, if it were to do so on the same basis as Plan I of the report of the Pacific Telephone and Telegraph Company, would be as shown in the following table:

|   |              |
|---|--------------|
| Annual depreciation on \$338,000 of fixed radio installations based on a 10-year life .....   | \$ 33,800.00 |
| Annual depreciation on 90% of \$726,000 of mobile radio units and parts based on a seven-year life .....  | 93,342.85    |
| Annual interest on \$736,000 at 2% which the State will receive for equipment .....   | 14,720.00    |
| Salaries and wages of 25 additional radio technicians which would be the minimum requirement for 25 additional mobile service centers proposed by Pacific Telephone and Telegraph Company on Page 13, Exhibit D. (Annual salary of each technician is \$3,900.) ..... | 97,500.00*   |
| Rent on the 25 additional centers @ \$50.00 per month per center .....  | 15,000.00*   |
| Annual costs for expendable shop supplies .....   | 1,375.00*    |
| Annual depreciation on 25 units of testing equipment at a cost of \$50,000. Depreciation is based on 10-year life .....   | 5,000.00*    |

\*Information furnished by Division of Communications.

The following is based on estimated expenditures for the 1952-53 Fiscal Year as shown in the 1953-54 Fiscal Year Budget:

**Maintenance:**

Division of Communications charges of \$150.00 per year

on 1242 units.....\$181,800

Charges for leased lines.....39,000

Miscellaneous parts and service.....4,550

225,350.00

\$486,087.85

The annual cost to the State of \$486,087.85 due to ownership, operation and maintenance of the communication facilities for the California Highway Patrol does not include many additional cost factors for the reason that accurate cost information could not be obtained. These factors are as follows:

1. Replacement cost of equipment which is destroyed by fire, accident or other damage.
2. Over-all administrative expenses of the California Highway Patrol due to communication system, such as:
  - (a) Portion of administrative staff time.
  - (b) Supervisor and employee's time directly or indirectly performing duties related to communications administration.
  - (c) Floor space for offices, spare equipment, storage, etc.
  - (d) Retirement and death benefits.
  - (e) Personnel accident and relief cost.
  - (f) Shipping, messengers, postage and spare parts.
  - (g) Furniture, files, records, maps, etc.

The \$374,276.40 annual charge of the Pacific Telephone and Telegraph Company to assume full responsibility for the operation and maintenance of a communications system as outlined on Page 15 of the report is \$111,811.45 less than the estimated cost to the State of \$486,087.85.

The annual charge of the Pacific Telephone and Telegraph Company for the proposed system, which provides an augmented level of service, is shown on Page 15 of the report and is \$454,273.08 or \$31,814.77 less than the estimated cost to the State of the existing program. However, the charge of \$454,273.08 will be decreased by \$36,348 annually when all medium frequency radio equipment (1690 KC) is removed from operation.

How much it would cost the State to provide and maintain an augmented system as outlined on Pages 15 and 16 of the report is undeterminable.

The report submitted by the Pacific Telephone and Telegraph Company contains data which this office is not prepared to evaluate from the technical standpoint, but we believe that the report has been made in such form that it can be properly studied by technical personnel and therefore can provide a basis for determining whether the State should adopt any or all of the proposals contained in the report.

Sincerely,

A. ALAN POST, Legislative Auditor

#### Senate Resolution No. 127

Relative to creating the Senate Fact Finding Committee on Un-American Activities.

WHEREAS, These are yet times of public danger, and subversive persons and groups are endangering our domestic unity so as to leave us unprepared to resist attack from without or within, and under color of the protection afforded by the Bill of Rights these

persons and groups seek to destroy our freedom by force, violence, threats, undermining and sabotage, and to subject us to the domination of foreign powers and ideologies; and

WHEREAS, There is danger that the order, through which the Country suffered may be in vain; and

WHEREAS, Persons, and groups, motivated by hatred of American ideals, our republican form of government and democratic processes, are now seeking to tear down by subversion what we have so valiantly fought to preserve and sustain; and

WHEREAS, California, as one of the territories of this great Nation, may profitably study the problem within its boundaries, and enact pertinent legislation therein, if facts are available therefor; and

There exists an extreme shortage of physical facilities for the operation of the custodial, mental treatment, educational, administrative, military and other agencies of the State Government, and present facilities being entirely inadequate due to great increases in population and added governmental responsibilities. The capital outlay appropriations in this budget are all in continuation of an existing program to remedy the aforesaid shortage of facilities and to promote and sustain the economy of the State. If they are not available for expenditure on July 1, 1953, the existing program will be delayed. The expeditious correction of such condition and the efficient operation of the State's business require the immediate availability of the new capital outlay appropriation and the uninterrupted availability of reappropriated capital outlay items contained in this measure. It is therefore necessary that this act go into immediate effect."

SACRAMENTO, May 11, 1953

Hon. Ed. C. Johnson

Senate Chamber

*Assignment of Applications to Appropriate Water—No. 9940*

DEAR SENATOR JOHNSON:

*Question*

You direct our attention to Section 25691 of the Government Code which authorizes counties to file applications to appropriate water and ask if a county can assign such an application.

*Opinion*

It is our opinion that a county may assign an application to appropriate water under the general provisions of law authorizing counties to dispose of property.

*Analysis*

An application to appropriate water constitutes property. (*Yuba Power Co. v. Nevada Irrigation District* (1929), 207 Cal. 521.)

Section 25363 of the Government Code authorizes the sale of property belonging to the county which is not required for public use. Under this section, we believe that the applications to appropriate water filed under Section 25691 of the Government Code could be assigned. The conditions required for such a sale would have to be met, of course.

The procedure for the assigning of applications to appropriate water is prescribed by Sections 765, et seq., of Title 23 of the California Administrative Code.

With the permission of the State Engineer, the point of diversion, place of use, or purpose of use may be changed from that specified in the application (Sec. 1701, Wat. C.) if the change will not operate to the injury of any legal user of the water involved (Sec. 1702, Wat. C.).

Very truly yours,

RALPH N. KLEPS, Legislative Counsel  
By GEORGE H. MURPHY, Deputy
